OBJECTIVE

Highly motivated professional seeking an Entry-level Software Engineer role to apply my knowledge and contribute to innovative projects. Eager to learn and grow within a dynamic team environment and committed to exceeding expectations and making a positive impact on the company's success.

EDUCATION

Bachelor of Technology (B.Tech)   2020-2024
Lendi Institute of Engineering and Technology   CGPA:8.3
Branch: Computer Science Engineering

Intermediate   2018-2020
Narayana Junior College   CGPA:8.98
Group: MPC

High School   2017-2018
Tiny Tots High School   CGPA:8.8
Board: SSC

SOFT SKILLS

Adaptability, Creativity, Problem Solving, Time Management, Team Work

TECHNICAL SKILLS

Languages : Python, Java(Core Java), SQL
Front-end Development : HTML, CSS, JavaScript(Adequate Knowledge)
Web Frameworks : Flask, BootStrap5
DevTools : Visual Studio Code, Git(Version-Control)

PROJECTS

1. YOLOv5s for Resource-Constrained Sign Language Detection: Sign Language Detection system converts Sign language into text which helps Dumb/Deaf people to start conversation with normal people.

2. Real-Time E-Commerce Price Comparison Web App: Created a dynamic E-Commerce Price Comparison Web App in Python, demonstrating expertise in web scraping, data integration, and real-time price comparison across Flipkart and Amazon.

3. Exploring Xception's Effectiveness in Detecting Deepfakes Across Image and Video Formats: Implemented a Hybrid Approach for Deepfake Detection using Xception, showcasing expertise in computer vision and machine learning. This project employs a sophisticated blend of techniques to effectively identify deepfake images and videos, underscoring my proficiency in artificial intelligence and image analysis.

INTERNSHIPS

1. Salesforce Developer Virtual Internship - SMARTINTERNZ : Hands-on experience in Salesforce development, configuring custom objects, and implementing workflows to streamline business processes.

2. Frontend Development Internship - IBM SKILLBUILD : Gained hands-on experience in web development with HTML, CSS, JavaScript and ReactJs framework in a dynamic and collaborative environment.

CERTIFICATIONS

1. Elite Certificate in Cloud Computing - NPTEL
2. Microsoft Certified: Azure Fundamentals (AZ-900)
3. Cisco Certified: Introduction to Cyber Security
4. STEP Test Certification - Hindu Group
